PROFESSIONAL SUMMARY

Backend Developer Intern with hands-on experience in Node.js backend development, RESTful API design, database integration, and scalable application logic. Skilled in Node.js, Express.js, PostgreSQL, MySQL, Docker, and JavaScript, with exposure to frontend integration and modern backend security practices. Experienced in inventory management, e-commerce systems, and API-driven applications.

TECHNICAL SKILLS

- Backend: Node.js, Express.js, REST APIs
- Databases: PostgreSQL, MySQL, MongoDB (Basic)
- Authentication & Security: JWT Authentication, Role-Based Access Control
- Frontend: HTML, CSS, JavaScript,Flutter
- DevOps & Tools: Docker, Git, GitHub
- Languages: JavaScript, Java, Python, Dart
- Core Concepts: Data Structures, OOP, Backend Architecture, SDLC

PROJECTS:

Inventory Management Backend System (Node.js)

- Built backend services using Node.js and Express.js for product and stock management.

- Developed REST APIs for inventory tracking, updates, and availability checks.

- Integrated PostgreSQL/MySQL with CRUD operations and validation logic.

- Optimized API performance and database queries for scalability.

E-Commerce Backend System

- Developed backend logic for products, orders, users, and transactions.

- Implemented REST APIs with JWT-based authentication.

- Integrated relational databases for order and user management.

Cloud Crew – Freelancer Platform

- Built backend APIs for skill-based project assignment and user management.

- Integrated frontend components using HTML, CSS, and JavaScript.

INTERNSHIP EXPERIENCE:

AI & Software Intern – CODTECH IT Solutions (Mar 2025 – May 2025)

- Worked on backend automation and API-based workflows.

- Optimized backend processes to improve system efficiency.

Web Developer Intern – LITZ Tech (Aug 2024 – Oct 2024)

- Developed web applications using HTML, CSS, JavaScript with backend integration.

- Supported server-side logic and database interactions.

EDUCATION

B.E. Computer Science and Engineering

SNS College of Technology, Coimbatore (2023 – 2027)

CERTIFICATIONS

- Artificial Intelligence: Concepts & Techniques – NPTEL
- Software Project Management – NPTEL
- Natural Language Processing – NPTEL
- Data Structures & Algorithms (Python) – ByteXL
- Databricks Fundamentals Accreditation – Databricks
- Enterprise Design Thinking Practitioner – IBM

ACHIEVEMENTS

2nd Prize – Code Debugging Competition

Special Mention – Paper Presentation
